2. Quality of the technical proposal	40	24
3. Quality of the project management	10	6
4. Budget and cost-effectiveness	30	18

Proposals falling below the overall and/or the individual thresholds announced above shall be rejected.

The following sub-criteria shall be taken into account in the assessment of each of the main award criteria:

1. Union dimension:

- a) Relevance of proposed information and promotion measures to the general and specific objectives listed in Article 2 of Regulation (EU) No 1144/2014, aims listed in Article 3 of that Regulation, as well as to priorities, objectives and expected results announced under the relevant thematic priority.

Following the evaluation, all eligible proposals are ranked according to the total number of points awarded. Financial contributions shall be awarded to the highest scoring proposals up to the available budget.

A separate ranked list shall be established for each of the priority topics listed under section 6.2 of the present call.

If there are two (or more) proposals with the same number of points on the same ranked list, then the proposal(s) which allows for diversification in terms of products or targeted markets shall be prioritised. This means that between *ex aequo* proposals, the Commission shall first select the one the content of which (firstly in terms of products, secondly in terms of targeted market) is not yet represented in the higher ranked proposals. If this criterion cannot be applied to differentiate the proposals, then the Commission shall select first the programme which got the highest score for the individual award criteria. It will first compare the scores for 'Union dimension', then for 'Quality of the technical proposal', and finally for 'Budget and cost-effectiveness'.

The order of the ranked lists will be strictly followed.

10. LEGAL COMMITMENTS

The coordinators of proposals included in the list for funding will be invited to engage in adaptation phase preceding the signature of the grant agreement; the adaptation will be carried out via an online grant preparation system (SYGMA). If successful, it will result in the signature of a grant agreement, drawn up in euro and detailing the conditions and level of funding.

The grant agreement must be signed electronically first by the coordinator on behalf of the consortium and then by Chafea. All co-beneficiaries must accede to the grant agreement by signing electronically the accession form to the grant.

11. FINANCIAL PROVISIONS

The Financial Regulation¹⁰ defines the applicable rules for the implementation of the multi programmes.

11.1. General principles applying to grants¹¹

a) Non-cumulative award

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget.

Applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or their functioning (operating grants), as well as any other funding received or applied for the same action.

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) The co-financing principle

Co-financing means that the resources which are necessary to carry out the action are not entirely provided by the EU grant.

The remaining expenditure shall be borne exclusively by the proposing organisation. Financial contributions given to a beneficiary by its members, specifically to be used for costs that are eligible under the action, are allowed and will be considered as receipts.

11.2. Balanced budget

The estimated budget of the action must be presented in part A of the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants, who foresee that costs will not be incurred in euros, are invited to use the exchange rate published in the Official Journal of the European Union:

¹⁰ Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012

¹¹ Article 188 of the Regulation (EU, Euratom) 2018/1046

11.3. Implementation contracts/subcontracting

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests¹².

The beneficiary is expected to clearly document the tendering procedure and retain the documentation for the event of an audit.

Where the proposing organisation is a body governed by public law within the meaning of Article 2(1)(4) of Directive 2014/24/EU, it must select the subcontractors in accordance with the national legislation transposing that Directive.

Subcontracting, i.e. the externalisation of specific tasks or activities which form part of the action as described in the proposal must satisfy the conditions applicable to any implementation contract (as specified above) and in addition fulfill the following conditions:

- it must be justified with regard to the nature of the action and what is necessary for its implementation;
- the core tasks of the actions (i.e. the technical and financial coordination of the action and the management of the strategy) can neither be subcontracted nor delegated;
- the estimated costs of subcontracting must be clearly stated in the technical and financial parts of the proposal;
- any recourse to subcontracting, if not provided for in description of the action, is communicated by the beneficiary and approved by Chafea. Chafea may grant approval:
 - (i) before any recourse to subcontracting, if the beneficiaries requests an amendment
 - (ii) after recourse to subcontracting if the subcontracting:
 - is specifically justified in the interim or final technical report and
 - does not entail changes to the grant agreement which would call into question the decision awarding the grant or be contrary to the equal treatment of applicants;
- the beneficiaries ensure that certain conditions applicable to beneficiaries, enumerated in the grant agreement (e.g. visibility, confidentiality, etc.), are also applicable to the subcontractors.

Subcontracting to entities having a structural link with the beneficiary:

Subcontracts may also be awarded to entities that have a structural link with the beneficiary, but only if the price is limited to the actual costs incurred by the entity (i.e. without any profit margin).

The tasks to be implemented by such entities must be clearly stated in the technical part of the proposal.

11.4. Funding forms, eligible and ineligible costs

Co-financing shall take the form of reimbursement of a specified proportion of eligible costs actually incurred; it will also comprise a flat rate covering indirect costs (equal to 4% of eligible personnel costs) that are linked with the implementation of the action¹³.

➤ **Maximum amount requested**

The EU grant aimed at restoring normal market conditions is limited to the maximum co-funding rate of 85% of the eligible costs.

Consequently, part of the total eligible expenses entered in the estimative budget must be financed from sources other than the EU grant (co-financing principle).

➤ **Eligible costs**

Eligible costs are actually incurred by the beneficiary of the grant and meet all the criteria indicated in Article 6 of the grant agreement:

- Eligible (direct and indirect) costs are indicated in the grant agreement (see Article 6 par. 1 and 2).
- Ineligible costs are indicated in the grant agreement (see Article 6.4).

➤ **Calculation of the final grant amount**

The final grant amount is calculated after completion of the programme, upon approval of the payment request.

The final grant amount depends on the actual extent to which the programme is implemented in accordance with the grant agreement's terms and conditions.

This amount is calculated by Chafea, when the payment of the balance is made, in the following steps:

- 1) Application of the reimbursement rate to the eligible costs.
- 2) Limit to the maximum grant amount.
- 3) Reduction due to the no-profit rule.
- 4) Reduction due to improper implementation or breach of other obligations.

EU grants may not have the purpose or effect of producing a profit within the framework of the action. 'Profit' shall be defined as the surplus of the amount

¹³ Applicant's attention is drawn to the fact that in case they receive an operating grant, indirect costs are not eligible.

obtained following steps 1 and 2 plus the action's total receipts, over the action's total eligible costs.

In this respect, where a profit is made, Chafea shall be entitled to recover the percentage of the profit corresponding to EU contribution to the eligible costs actually incurred by the beneficiary(ies) to carry out the action. A partner (coordinator or other beneficiary) requesting an EU contribution of ≤ EUR 60,000 is exempted from this provision.

11.5. Payment arrangements

A pre-financing payment corresponding to 20% of the grant amount will be transferred to the coordinator according to the conditions set out in the grant agreement (Art 16.2).

Chafea will establish the amount of the payment of the balance on the basis of the calculation of the final grant amount and according to the conditions set out in the grant agreement.

If the total amount of earlier payments is greater than the final grant amount, the payment of the balance takes the form of a recovery.

11.6. Pre-financing guarantee

In the event that the applicant's financial capacity is not satisfactory, a pre-financing guarantee for an amount up to that of the pre-financing payment may be requested in order to limit the financial risks linked to the pre-financing payment.

If requested, the financial guarantee, in euro, shall be provided by a bank or approved financial institution established in one of the Member State of the European Union. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by a joint and several guarantee by a third party or by a joint guarantee of the beneficiaries of the action who are parties to the same grant agreement.

The guarantor shall stand as first-call guarantor and may not require Chafea to first have recourse against the principal debtor (i.e. the beneficiary concerned).

The pre-financing guarantee shall explicitly remain in force until the payment of the balance and, if payment of the balance takes the form of recovery, until three months after the debit note is notified to a beneficiary.

No guarantees will be required for a beneficiary receiving an EU contribution of EUR ≤ 60,000 (low value grants).

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union's contribution in all activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Union on all their publications, posters, programmes and other products realised under the co-financed project.

Rules for the graphic reproduction of the European emblem are found in the Inter-institutional Style Guide¹⁴.

In addition, all visual material produced in the framework of a promotion programme co-financed by the European Union must bear the signature "Enjoy it's from Europe":

Guidelines on the use of the signature, as well as all graphic files can be downloaded from the promotion website on Europa¹⁵.

Lastly, all written material, i.e. brochures, posters, leaflets, banners, billboards, print advertisements, articles in newspapers, webpages (with the exception of small gadgets) should include a disclaimer according to the terms detailed in the grant agreement, explaining that it represents the views of the author. The European Commission/Agency does not accept any responsibility for use that may be made of the information it contains.
