- (b) increase the competitiveness and consumption of EU agricultural products and certain food products and to raise their profile both inside and outside the EU
- (c) increase the awareness and recognition of EU quality schemes
- (d) increase the market share of EU agricultural products and certain food products, specifically focusing on those markets in third countries that have the highest growth potential
- (e) restore normal market conditions in the event of serious market disturbance, loss of consumer confidence or other specific problems.

## 2. Objectives — Themes and priorities — Activities that can be funded — Expected impact

### AGRIP-SIMPLE-2021-IM-EU QS

#### Objectives

The objective is to increase the awareness and recognition of the Union quality schemes, namely:

- (a) quality schemes: protected designation of origin (PDO), protected geographical indication (PGI), traditional specialty guaranteed (TSG) and optional quality terms;
- (b) the logo for quality agricultural products specific to the outermost regions of the Union.

Information and promotion programmes on Union quality schemes should be a key priority in the internal market since such schemes provide consumers with assurances on the quality and characteristics of the product or the production process used, achieve added value for the products concerned and enhance their market opportunities.

One of the expected results is to increase the levels of recognition of the logo associated with the Union quality schemes by the European consumers. According to special Eurobarometer (No 504), only 14 % of European consumers recognise the logos of products that benefit from a protected designation of origin (PDO), 20 % recognise a protected geographical indication (PGI), and 14 % recognise a traditional specialty guaranteed, these being the main Union quality schemes.

The expected ultimate impact is to increase awareness of the Union quality scheme and to enhance the competitiveness and consumption of products registered under a Union quality scheme, raise their profile and increase their market share.

**AGRIP-SIMPLE-2021-IM-ORGANIC***Objectives*

The objective is to increase the awareness and recognition of the Union quality scheme on organic production.

Information and promotion programmes on the Union quality scheme on organic production method should be a key priority in the internal market since this scheme provides consumers with assurances on the sustainability, quality and characteristics of the product and the production process used and the environmental benefits they generate, achieve added value for the products concerned and enhance their market opportunities.

One of the expected results is to further increase the levels of recognition of the EU organic logo by the European consumers. According to special Eurobarometer (No 504), the awareness of the organic farming logo has increased by 29 percentage points since 2017 with 56 % of European consumers who recognise the EU logo of organic farming.

The expected ultimate impact is to increase awareness of the Union quality scheme on organic production and to enhance the competitiveness and consumption of organic products, raise their profile and increase their market share.

**AGRIP-SIMPLE-2021-IM-SUSTAINABLE***Objectives*

Actions should highlight the sustainability of EU agriculture, stressing its beneficial role for climate action and the environment. Actions should address how the product(s) promoted and its/their production method(s) contribute to:

- (a) climate change mitigation (e.g. reduction in greenhouse gas emissions) and/or adaptation (e.g. water savings, climate-resistant crops and crop varieties) and
- (b) at least one of the following:
  - (i) biodiversity conservation and sustainable use of natural resources (e.g. wildlife, landscape, genetic resources);
  - (ii) sustainable water management (e.g. water use efficiency, reduction of nutrients or pesticides load);
  - (iii) sustainable soil management (e.g. erosion control; nutrient balance; prevention of acidification, salinisation, reduction of pesticides);
  - (iv) sustainable, carbon-efficient methods of livestock production.
  - (v) reduction of use of antimicrobials
  - (vi) reduction of food loss and food waste
  - (vii) sustainable consumption
  - (viii) animal welfare.

**AGRIP-SIMPLE-2021-IM-PROPER-DIET***Objectives*

The Commission is committed to promote proper dietary practices, in line with the European Commission's white paper on a strategy on nutrition, overweight, and obesity related health issues<sup>(6)</sup>. Actions shall highlight the benefits of consuming fresh fruit and vegetables in a balanced diet. The messages could notably focus on: aiming at having at least 5 portions of a variety of fruit and vegetables each day; the place of fruit and vegetables in the food pyramid, beneficial impact on health, etc.

The objective is to increase the consumption of EU fresh fruit and vegetables by informing consumers about balanced and proper dietary practices.

The expected ultimate impact is to enhance the competitiveness and consumption of the concerned EU fruit and vegetables, raise their profile and increase their market share.

 Tastings and distribution of samples are not allowed in the context of campaigns on responsible drinking implemented in the internal market; these activities are however acceptable if ancillary to and supportive of the provision of information measures on the quality schemes and organic production method.

Activities should be complementary to and should not overlap with activities financed through the Common Agricultural Policy and/or through the funds or instruments of the different Member States supporting at the national level the promotion of agricultural products. Projects must be designed to complement other private or public activities implemented by the proposing organisation(s) in the targeted markets; synergies with such activities must be ensured.

Projects should take into account the results of previous co-financed campaigns clearly describing their impact and reasons for resubmission.

The complementarities must be described in the project proposal (Part B of the Application Form).

Projects must comply with EU policy interests and priorities (*such as environment, climate, social, development and trade policy, etc.*).

Proposals must:

- a) ensure that the measures are implemented through implementing bodies as referred to in Article 13 of Regulation (EU) No 1144/2014. Proposing organisations must select bodies responsible for implementing programmes ensuring best value for money and absence of conflict of interest (see Article 2 of Delegated Regulation (EU) 2015/1829). The proposing organisation shall undertake that the body responsible for the implementation of the programme shall be selected at the latest before the signature of the grant agreement (see Article 10 of Implementing Regulation (EU) 2015/1831);
- b) ensure that the costs of the measure which it plans to carry out itself is not in excess of the normal market rates, if the proposing organisation proposes to implement certain parts of the proposal itself;
- c) comply with Union law governing the products concerned and their marketing and have a Union dimension;
- d) for proposals in the internal market covering one or more schemes as referred to in Article 5(4) of Regulation (EU) No 1144/2014: focus on the(se) scheme(s) in their main Union message. When in this programme, one or several products illustrate(s) the(se) scheme(s), it/they must appear as a secondary message in relation to the main Union message;
- e) for messages containing information on the impact on health:
  - in the internal market: comply with the Annex to Regulation (EC) No 1924/2006 of the European Parliament and of the Council<sup>(14)</sup>, or be accepted by the national authority responsible for public health in the Member State where the operations are carried out

<sup>(14)</sup> Regulation (EC) No 1924/2006 of the European Parliament and of the Council of 20 December 2006 on nutrition and health claims made on foods (OJ L 404, 30.12.2006, p. 9).

- in third countries: be accepted by the national authority responsible for public health in the country where the operations are carried out
- f) for proposals proposing to mention origin or brands: comply with the rules as referred to in Chapter II of Implementing Regulation (EU) 2015/1831.

For the purposes of assessing the eligibility of the activities, the following information must be provided:

- for proposals covering national quality schemes: documentation or a reference to publicly available sources that prove that the quality scheme is officially recognised by the Member State
- for proposals targeting the internal market and relaying a message on proper dietary practices or responsible alcohol consumption: description how the proposed programme and its message(s) are in line with the relevant national rules in the field of public health in the Member State where the programme will be carried out (including references or documentation in support of this claim)
- for proposals promoting sustainable products or methods: documentation or a reference to publicly available sources that prove that the product/method is certified as sustainable.

Financial support to third parties is allowed for grants under the following conditions:

- the financial support is given only to entities that are linked to the beneficiary <sup>(15)</sup> and identified already in the project proposal
- the project specifies the maximum amount of financial support for each third party and the criteria and procedures for giving the financial support
- the beneficiaries ensure that the costs charged to the action are limited to the costs actually incurred by those third parties and that the entities comply with the principle of sound financial management and keep records on their costs.

#### *Geographic location (target countries)*

Applications must relate to activities targeting one or several countries covered by the chosen topic of the call.

#### *Duration*

Projects should have a minimum duration of 12 and a maximum duration of 36 months.

Proposals should specify the duration of the action.

## **7. Financial and operational capacity and exclusion**

#### *Financial capacity*

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the following documents:

- the annual accounts (including profit and loss account and balance sheet) for the last financial year for which the accounts were closed;
- for newly created entities, a business plan (if the accounts are not available);
- the pre-filled financial viability form summarising the necessary data from the annual accounts contributing to the assessment of the financial capacity.

In addition, for participant requesting an EU contribution of more than EUR 750 000 (threshold per applicant):

- an audit report issued by an approved external auditor certifying the accounts for the last available financial year, if such report is available and a statutory audit is required under EU or national law;

OR

---

<sup>(15)</sup> 'Linked entities' are entities that have a link with the beneficiary, in particular, a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation.

- a self-declaration signed by the applicant's authorised representative certifying the validity of its accounts. The self-declaration must be accompanied by legal documents proving the legal representative's identity and that they are entitled to sign on behalf of the participant.

The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities)
- if the individual requested grant amount is not more than EUR 60 000.

#### *Operational capacity*

Applicants must have the **know-how, qualifications and resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

Applicants must demonstrate that at least one natural person working under employment contract with the applicant (or assigned to the action on basis of an equivalent appointing act, secondment against payment or on the basis of other types of direct contracts, e.g. *covering provision of services*) will be appointed as a project manager. The project manager must have at least three years' experience in project management.

The operational capacity will be assessed as part of the 'Quality' award criterion on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following information in the Application Form (Part B):

- general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project (e.g. *CV of the project manager, CVs core project team, etc.*)
- applicants' activity report of the last year
- list of EU-funded projects for the last 3 years.

In case where proposing organisations propose to implement certain parts of the proposal, evidence shall be given that they have at least 3 years' experience in implementing information provision and promotion measures. Therefore, shall provide the following information:

- description of the relevant activities performed by the applicant.

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

#### *Exclusion*

Applicants which are subject to **EU administrative sanctions** (i.e. exclusion or financial penalty decision) <sup>(16)</sup> or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct <sup>(17)</sup> (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

<sup>(16)</sup> See Article 136 of EU Financial Regulation 2018/1046.

<sup>(17)</sup> Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of Council Regulation (EC, Euratom) No 2988/95 <sup>(18)</sup> (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that <sup>(19)</sup>:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

## 8. Evaluation and award procedure

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

Proposals will first be checked for formal requirements (admissibility and eligibility) and then evaluated (for each topic separately) by an **evaluation committee** (assisted by independent outside experts) for operational capacity and award criteria (see sections 7 and 9) and then ranked according to their quality score.

For proposals with the same score (within a same topic) a **priority order** will be determined according to the following approach:

For every group of *ex aequo* proposals, starting with the highest scored group, and continuing in descending order, proposals which allow for diversification in terms of products or targeted markets will be prioritised.

This means that, between *ex aequo* applications within the same topic, priority will be given to applications which are not yet represented in the higher ranked proposals firstly in terms of products, secondly in terms of targeted market.

If these criteria cannot be applied, then projects with highest score for individual award criteria will be selected.

We will first compare projects scores for the award criterion 'Relevance'. When these scores are equal, priority will be based on the scores for the criterion 'Impact'. When these scores are equal, priority will be based on the scores for the criterion 'Quality'.

The order of the ranked lists will be strictly followed.

The European Commission shall adopt an implementing act determining the simple programmes selected, any changes to be made to them, and the corresponding budgets (award decision). This Commission decision will list the selected programmes accepted for a financial contribution from the Union under Article 15 of Regulation (EU) No 1144/2014. The decision will be addressed to the competent Member States.

As soon as the Commission adopts this implementing act, it shall forward the copies of the selected programmes to the Member States concerned. Member States shall without delay inform the proposing organisations concerned whether or not their applications have been accepted.

<sup>(19)</sup> See Article 141 EU Financial Regulation 2018/1046.

## 10. Legal and financial set-up of the Grant Agreements

The Member States concerned shall be responsible for the proper implementation of the simple programmes selected and for the relevant payments.

Member States shall conclude grant agreements for the implementation of programmes with the selected proposing organisations in accordance with the requirements mentioned under Article 10 of Implementing Regulation (EU) 2015/1831.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on Portal Reference Documents.

#### *Starting date and project duration*

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. It should not be later than 6 months after the date of entry into force of the grant agreement. Retroactive application can be granted exceptionally for duly justified reasons — but never earlier than the proposal submission date.

Project duration: minimum 12, maximum 36 months.

#### *Deliverables*

The deliverables for each project will be reflected in Annex 1 of the Grant Agreement.

#### *Form of grant, funding rate and maximum grant amount*

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc.*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget: No limit. The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant. This means that it will reimburse ONLY certain types of costs (eligible costs) and ONLY costs you *actually* incurred for your project (NOT the *budgeted* costs).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement (75/85 % for beneficiaries that are established in EU Member States receiving financial assistance and 70 (for simple programmes in the internal market)/80 % (for simple programmes in third countries) for beneficiaries from other countries).

The no-profit rule applies to for-profit organisations applying under this call. The grant may NOT produce a profit. If there is a profit (i.e. surplus of revenues + EU grant over costs), we will deduct it from your final grant amount.

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (e.g. *improper implementation, breach of obligations, etc.*).

- VAT: non-deductible VAT is eligible (but please note that since 2013 VAT paid by beneficiaries that are public bodies acting as public authority is NOT eligible)

  - inception meeting: costs for inception meeting organised by the granting authority are eligible (travel costs for maximum 2 persons, return ticket to Brussels and accommodation for one night) only if the meeting takes place after the project starting date set out in the Grant Agreement; the starting date can be changed through an amendment, if needed
  - financial contributions given by third parties, specifically to be used for the costs that are eligible under the action are not allowed, except if given by the members of the beneficiary's organisation.

#### *Reporting and payment arrangements*

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

After grant signature, you are entitled to receive an advance payment to start working on the project (float of normally 20 % of the maximum grant amount).

The proposing organisation may submit an application for an advance payment to the Member State concerned in accordance with Article 13 of Implementing Regulation (EU) 2015/1831.

The advance payment shall be paid on condition that the proposing organisation has lodged a security equal to the amount of that advance in favour of the Member State in accordance with Chapter IV of Commission Delegated Regulation (EU) No 907/2014 <sup>(20)</sup>.

There will be an interim payment (with detailed cost reporting) at the end of each year of completed implementation of the action.

Applications for the interim payment shall be submitted by the proposing organisation to the Member States in accordance with Article 14 of Implementing Regulation (EU) 2015/1831.

Applications for payment of the balance shall be submitted by the proposing organisation to the Member State States in accordance with Article 15 of Implementing Regulation (EU) 2015/1831. The Member State will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, the Member State will ask the coordinator to pay back the difference (recovery).

All payments will be made to the coordinator, if any.

#### *Certificates*

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the grant agreement (*Data Sheet, point 4 and art 24*).

## 12. Important

### IMPORTANT

- Don't wait until the end — Complete your application sufficiently in advance of the deadline to avoid any last minute technical problems. Problems due to last minute submissions (*e.g. congestion, etc.*) will be entirely at your risk. Call deadlines can NOT be extended.
- Consult the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- Funding & Tenders Portal Electronic Exchange System — By submitting the application, all participants accept to use the electronic exchange system in accordance with the Portal Terms & Conditions.
- Registration — Before submitting the application, all beneficiaries must be registered in the Participant Register. The participant identification code (PIC) (one per participant) is mandatory for the Application Form. Associated partners can register later on (at the latest during grant preparation).
- Consortium roles — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.  

The roles should be attributed according to the level of participation in the project. Main participants should participate as beneficiaries; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. Associated partners and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). Subcontracting must be performed by third parties (not by one of the beneficiaries).
- Coordinator — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- Associated partners — Applicants may participate with associated partners (*i.e. partner organisations which participate in the action but without the right to get grant money*). They participate without funding and therefore do not need to be validated.
- Consortium agreement — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.
- Balanced project budget — Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc.*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- No-profit rule — Grants may NOT give a profit (*i.e. surplus of revenues + EU grant over costs*). This will be checked by us at the end of the project.
- No double funding — There is a strict prohibition of double funding from the EU budget (except under EU Synergies calls). Outside such Synergies calls, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.
- Completed/ongoing projects — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).

— Combination with EU operating grants — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see AGA — Annotated Model Grant Agreement, art 6.2.E).

— Multiple proposals — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).

Organisations may participate in several proposals.

BUT: if there are several proposals for the *same/very similar* project, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

— Resubmission — Proposals may be changed and re-submitted until the deadline for submission.

— Rejection — By submitting the application, all applicants accept the call conditions set out in this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be rejected. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.

— Cancellation — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.

— Language — You can submit your proposal in any official EU language. However, for reasons of efficiency, we strongly advise you to use English.

— Transparency — In accordance with Article 38 of the EU Financial Regulation, information about EU grants awarded is published each year on the Europa website.

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

— Data protection — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the Funding & Tenders Portal Privacy Statement.
